

AqWiFi

KEEP AN EYE VIA
AQWIFI

Remote Monitoring Device

WELL SYSTEM MONITOR WITH LOCAL AND REMOTE ACCESS

Designed for the **AQUAVAR SOLO²:**

- Monitor the Well System
 - Receive data from the SOLO² remotely from the Internet
- Easy Installation and Set-up
 - Uses Wi-Fi connection
 - Text and/or email notices, if a fault occurs
 - AgWiFi App allows the installer to view live data of their SOLO² installs and a dashboard for a quick look at multiple system status

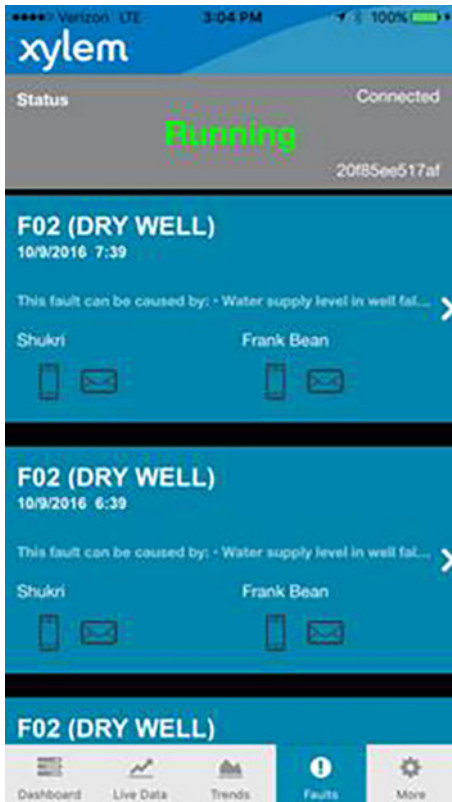

LED status lights alerts you if unit is connected to the internet and if data is transferring to the cloud

MODE button helps set-up initial internet connection

GOULDS
WATER TECHNOLOGY
a xylem brand

AqWiFi allows the installer to easily access live data on all their SOLO² installs

The following parameters can be seen, using the AqWiFi App:

- Pressure
- Speed
- Output Current
- Input Voltage
- Faults

Download the AqWiFi App. Available for Apple or Android devices.

FEATURES & BENEFITS

- For indoor or outdoor use
- Text and/or email notifications in case of faults
- View up to a year of system history for easy troubleshooting, including Pressure, Speed, Output Current, Input Voltage and Faults
- Allows you to know what equipment to bring on a service call
- Monitor all your installations from a single app
- All faults will have date and time stamps
