HYPACK Seminars and Other Events in Latin America 2018

By Carlos Tejada

It's amazing! January is already over and of course we are in full throttle into 2018. It is for that reason that I want to share with you all the HYPACK Seminars in Spanish that we will be holding, as well as some other Conferences and Hydrographic Events in which we are planning to participate. Please do not hesitate to contact us if you are interested in any of them or if you would like us to participate in another Hydrographic Event in the region that is not listed here.

HYPACK SEMINARS

With the recently concluded HYPACK Training Event in Savannah, GA, we have completed 25 years of continuous seminars. As you all know, they are a great opportunity for our users to get very affordable training, or to get to know the latest improvements in our software. It is also a great opportunity to let us know what you want to see in future versions, or anything that you don't like and want us to improve. There are many reasons to come to a HYPACK Seminar, so please do not hesitate to come and join us.

We are going to hold 3 seminars in Spanish and one more in English in the Latin American Region:

Buenos Aires, Argentina April 11th - 13th: This year, we will be conducting the Training Seminar at the Escuela del Mar Auditorium. It is in a very convenient location in Puerto Madero which will reduce the cost to our participants even more. If you want to be part of this event, please contact our agent in Argentina: IEA – Ing. Wendell S. Jones wjones@ieasrl.com.ar. They will be more than happy to provide you with more detailed information. .

San Jose, Costa Rica June 20th - 22th: This is the ideal location for our users in Mexico and Central America. If you're interested please contact Geos Telecom – Antonio Robinson antonio@geostelescom.com. We do not have many spaces available for this event, so please contact him as soon as possible.

Guayaquil, Ecuador October 2018: Our reseller in Ecuador, is working with INOCAR to get the best possible place to host this event. Again, only few seats are available, so please contact him soon if you are interested: Iván Pazmiño (Instrumental y Óptica ipazmino@instyopt.com)

HYPACK 2018 Brazil: We will be also holding a HYPACK Seminar in Brazil. Our distributor there, A2 Marine is looking for a facility in the Santa Catarina State to hold the seminar. Please contact them for further details: A2 Marine Alex Franco franco@a2marinesolution.com. As in previous occasions, we will have the participation of R2Sonic. This seminar will be conducted in English.

OTHER TRAINING EVENTS

In March, we will be conducting a multibeam training for Direccion de Hidrografia y Navegacion del Peru and we will have few open spaces available. This is a complete training that will include collecting and processing real data from one of the DHN Systems. If you are interested in participating, please contact our Agent in Peru: Humberto Vasquez BIDHUMVA visiontecnology@yahoo.es

In similar circumstances, we will be holding another multibeam training in Veracruz, México with the Support of DIGAOHM. For more information, please contact our Agent in Mexico. SEAPROD – 'Lic. Víctor Andoni Aguirre Hernández' vaah@seaprod.com.mx

CONFERENCES & SEMINARS

During 2018, we will be participating in the following events hosted in the Latin-American Region:

- **May 7th - 11th** Panamá 34th PIANC World Congress.
- **August 29th & 30th** in Barranquilla, Colombia, The Second International Conference on New technologies for Sea & Rivers - CINTECMAR.
- **October 2018**, Lidar Technics Seminar organized by INOCAR with the Support of the IHO.
- **Nov 26th - Dec 1, 2018** Cartagena de Indias, Colombia the 19TH Regional Hydrographic Commission of Mesoamerica and the Caribbean Sea Meeting.

In addition to these training events, you can contact HYPACK to do site-specific training and on-site technical consulting.

If you think that our participation will be important in another event not listed here, please contact me at carlos@hypack.com. If you are coming to one of our events, It will be a pleasure to talk to you and try to help you in any way I can.
