## What's New About The HYPACK 2019 User Training Event?

By Christine Roca

The HYPACK® 2019 User Training Event will take place January 8-11 at The Omni Hotel in Corpus Christi, TX. This has been an annual event for the last 25 years. And in the last 25 years we have instructed and learned from thousands of our users and we appreciate your input and loyalty to our products. This year, we have revamped our presentations. We are focusing more on work-related and on-the-job uses and less on individual programs within HYPACK®. With this revamping, our goal is to give attendees real- life applications and tools to better equip them in their daily roles. An example of some of the new presentations are: Sonar Theory- Understanding MBES, Intro to surveying and HYPACK®, HYPACK® and Autonomous Vehicles, and DREDGEPACK® Operation.

We are also holding our first-ever Question & Answer panel on the second day. Attendees are encouraged to submit questions prior to the Q&A session. We will feature these questions during the panel and you will also receive a special gift, if selected. You can send your submissions to [Christine@hypack.com](mailto:Christine@hypack.com).

We will continue to host 30 of the most innovative companies in the industry in the exhibit hall and our trainers will be available for one-on-one sessions throughout the 3 day event. Boat Demos will be available from participating exhibitors.

For more information on this training and to register, please go to [www.hypack2019.com](http://www.hypack2019.com)

We look forward to seeing you in Corpus Christi!
