## Portable Samplers and Samplers for Wall Mounting

Dear Madame or Sir,

We would like to introduce our new samplers as a **portable** version (**PB-M**) and for **wall mounting** (**PB-W**). The samplers are now ready to order and you can find more product information on our [Homepage](#).

### Attachments of the SMI:

- Flyer (available for order with 999150D & 999151D)
- Datasheets (complete collection available for order with 999266D)
- Operating manuals
- Pictures
- Tender documents are available from [Techinfo.WTW@Xylem.com](mailto:Techinfo.WTW@Xylem.com)

### Applications

- Inlet and Outlet of municipal and industrial waste water treatment plants
- Remote facilities
- Surface Water monitoring
- Spot and governmental monitoring

### Advantages towards market competitors

- Very lightweight and unique carrying comfort
- Modern und ergonomic design
- Long battery run-time thanks to "sleep mode" (PB-M)
- Highly accurate sample volume with vacuum pump system
- Clear operating structure and easy programming

Best Regards

Dr. Patrick Wolf & Lisa Wild
