

# Watermark PLOG! Challenge

Whether you walk, jog or ride, we hope you're ready to plog!

Regardless of how you get out and move, throughout June we're encouraging all to get active while doing good for our communities. Grab a trash bag and gloves or a picker and prepare to be surprised by all the discarded trash you may find around your community. As you clean up the environment, also take some time to learn and share how we can prevent plastic items from reaching our streets, waterways and landfills.

Are you up for the challenge? Complete five squares in a row and Xylem Watermark will make a \$10 donation to our global nonprofit partners. Are you able to complete the whole board? If so, your actions will activate a donation of \$100!

**Scan the QR code to upload your completed BINGO card and answer the survey questions by June 30, 2021.**

For questions contact [xylemwatermark@xylem.com](mailto:xylemwatermark@xylem.com).

Let's get plogging!

P	L	O	G	!
<a href="#">View a Plogging video</a> 	Research different plastic types and which are recyclable in your area	Find 10 discarded food wrappers	Use reusable bags on your next shopping trip	Bring a family member or friend to plog with you
Spend a week without using any disposable plastic bottles	Find 5 plastic bottles (and recycle them!)	Plog with a furry friend (pet)	Find 5 plastic bags	Share a photo of you plogging to your social media with #WatermarkPlogging
Find 5 disposable masks	Use reusable utensils for your next take-out meal	<b>Go for a plog! Free space</b>	Attend a virtual Zoom plogging session with colleagues	Find 5 aluminum cans (and recycle them!)
Fill a full trash bag with collected litter	Spot 3 different native animals while plogging	Find 5 discarded straws	Spread the word! Teach someone new about plogging	Find 5 disposable gloves
<a href="#">Sign this petition</a> 	Share a photo of the most surprising item you find while plogging to social media with #WatermarkPlogging	Try out 3 new ways to reduce plastic waste at home	Find 5 discarded cigarettes	Mix it up! Try a new plogging route
