

# Watermark Watershed Bingo Challenge

This June, let's educate ourselves and others, and take action to preserve our precious water resources! Plogging is just one of many ways to protect your watershed.

Are you up for the challenge? Grab a trash bag, a shovel, or even your phone, and get started in the 2022 Watermark Watershed Bingo Challenge. Click on a square for more information.

Complete five squares in a row, submit your results, and Xylem will donate \$10 to our nonprofit partner, EarthEcho International. Are you able to complete the whole board? If so, you'll activate a \$100 donation!

To submit your results, scan the QR code or [click here to upload a picture of your completed BINGO card by July 31<sup>st</sup>](#).

For questions contact [xylemwatermark@xylem.com](mailto:xylemwatermark@xylem.com).

W	A	T	E	R
Research your own watershed and any issues that might be affecting it	<a href="#">Get up to speed on plogging by watching this video</a> 	<a href="#">Participate in an Invasive Species Removal Project</a>	Plant a native species in partnership with a nonprofit or local park service	Bring a family member or friend on a plog with you
Spend a week without using any disposable plastic bottles	Find 5 plastic bottles while plogging (and recycle them!)	Go for a plog!	Do any of these activities with a colleague – in-person or virtually!	<a href="#">Join the #LetsSolveWater campaign &amp; upload video of you passing on water on your social media</a>
<a href="#">Watch the Microplastics Webinar (Passcode: 208YPuW+)</a>	<a href="#">Use River Runner Global to drop a raindrop on your community &amp; see where it ends up</a>	<b>FREE SPACE</b>	<a href="#">Conduct a home water audit and make a change to conserve your water use</a>	<a href="#">Complete the Watershed Trivia Challenge</a>
Fill a full trash bag with collected litter	Collect rainwater to use for watering plants	Find 5 plastic bottles while plogging (and recycle them!)	Spread the word! Teach someone new about plogging	Share a photo doing any of these activities to social media with #WatershedMoment
Sign a petition to protect a watershed – Search <a href="#">here</a> or research your own	Use reusable bags on your next shopping trip	<a href="#">Test a local water source with students – OR donate a water testing kit to an underserved classroom</a>	<a href="#">Comment your support on someone's #WatershedMoment post on Social Media</a>	Participate in a Storm Drain labeling or clearing activity

For External Use – Challenge terms and conditions apply to non-Xylem employees
