**PRODUCTS AND SERVICES**

- **Xylem Pumps For Europe’s Largest Wastewater Treatment Plant**
  - Europe’s largest wastewater treatment plant treats about 1.5 million cubic meters of wastewater in the Paris region every day. In the frame of the modernization of the plant, Paris municipal authority chose Xylem for the supply of more than 90 Flygt pumps, thanks to Xylem expertise and energy efficient technologies.

- **Xylem Participates in World’s Largest Water Reuse Installation**
  - Technology from Xylem’s Flygt, Sanitaire and Lowara brands is powering the world’s largest water reclamation and reuse center in Kuwait, a desert country where about 75 percent of potable water must be distilled or imported.

- **SMART Tunnel in Kuala Lumpur, Malaysia**
  - Xylem designs pumping solutions for unique dual-function tunnel in Kuala Lumpur. The award winning ‘Storm Water Management and Road Tunnel’ (SMART) tunnel in the Malaysian capital Kuala Lumpur, that has been successfully diverting flash floods in the city, uses Xylem Flygt brand pumps for transport and dewatering.

- **Using Stormwater at Sydney Airport**
  - Sydney Airport recently underwent a major infrastructure development project focused on making it more efficient and environmentally friendly. The contractor turned to Xylem and its Flygt, Sanitaire, Wedeco and Lowara brands to provide a new stormwater recycling program intended to save approximately 350 million liters of fresh water per year.
